Walt Disney

Walt Disney was born on December 5th, 1901, in Chicago, Illinois, U.S.A. He made many animated movies. He also created Mickey Mouse and the amusement park Disney Land.

There were six people in Walt Disney's family. His father was a carpenter. His mother was a teacher. And, he had three brothers. Walt Disney was the youngest in his family. In school, Walt was good at drawing and painting. Later, Walt studied cartooning and went to an art school. He had to stop studying to join World War I. He was an ambulance driver for the American Red Cross in France and Germany.

In 1922, Disney and a friend started a small animation studio and made short movies. They were successful and opened a new studio in Hollywood. In 1927, Disney and his friend created a new character — a happy and energetic mouse called Mickey. They quickly made a Mickey Mouse cartoon with voices and music titled *Steamboat Willie*. When it appeared in 1928, *Steamboat Willie* was a hit!

In 1934, the Disney studio began work on the first long animated movie *Snow White*. They invented many new animation techniques. The film was finished three years later in 1937. It was a story about a beautiful girl, seven little people called dwarves, and a bad witch. It was another hit! The Disney studio made many more successful movies : *Pinocchio* (1940), *Dumbo* (1941), and *Bambi* (1942). In 1940, Disney moved his company into a new studio in Burbank, California.

Disney Land opened near Los Angeles in 1955. It is a magical place with many fantastic lands. Visitors can enjoy many exciting attractions and can meet characters from the Disney movies. Fans travel from around the world to enjoy the Disney Land amusement park. Many more Disney Land parks have opened around the world including the popular Tokyo Disney Land.

Disney's imagination, energy, and humor, inspired him to make well-loved entertainment for "children of all ages" all over the world.
